---

## Personal Profile

---

I am a reliable and motivated Digital Production, Design and Development graduate with experience in web development, IT support, databases and software design. I have built web applications using Django, Python, HTML, CSS, JavaScript and SQL, and I am confident using tools such as Figma, GitHub, Microsoft 365, Windows OS and Visual Studio Code. Through my industry placement, college projects and freelance work, I have developed strong problem-solving, communication, teamwork and time management skills. I am now looking for an apprenticeship or junior role where I can continue building my technical skills in a real workplace environment.

---

## Experience

---

### Eyres Furniture / Digital Development & IT Support Placement

JUNE 2025 - JAN 2026, 12 Park St, Worksop S80 1HD

During my industry placement at Eyres of Worksop, I supported the team with a range of IT-related tasks and digital projects. I assisted with resolving day-to-day technical issues, contributed to the design and development of promotional materials such as posters and banners, and was tasked with creating a website for the company's coffee shop. This experience allowed me to apply my skills in Django, HTML, and CSS in a real-world setting, strengthen my understanding of user needs, and work collaboratively within a professional team environment.

### Webflare Studio – Freelancer Web Developer

APRIL 2023 - PRESENT, RETFORD, UNITED KINGDOM.

- Designed and built responsive websites and web applications for freelance and personal projects
- Used Django, Tailwind CSS, JavaScript, HTML, and

**SQLite** to develop full-stack solutions

- Produced wireframes and UI designs in **Figma** before implementing them in code
- Built and tested features including logins, dashboards, admin areas, booking/order flows, and data handling
- Identified, debugged, and fixed functional and visual issues to improve reliability and user experience
- Applied problem-solving skills to improve performance, navigation, responsiveness, and accessibility
- Managed projects independently from planning and design through development, testing, and refinement

---

## Education

---

### **North Notts College** / T Level 3 Digital Production, Design & Development

SEPTEMBER 2024 - MAY 2026, 215 CARLTON ROAD, WORKSOP, S81 7HP

In my first year I learnt the core parts of computing such as programming, problem solving, databases, security, data handling and the software lifecycle, as well as completing an employer-set project and an industry placement. In my second year I focused more on development, building web applications with Django, Python, HTML, CSS, Bootstrap and Bootswatch. I used Figma designs to make responsive layouts, worked with SQL for databases, and managed code using Git/GitHub.

### **North Notts College** / GCSE

- **Mathematics** - GRADE 4
- **English Language** - GRADE 4

Achieved GCSE qualifications in Maths and English, with certificates available as evidence. These qualifications demonstrate my ability to communicate clearly, understand written information, use numeracy skills, and apply problem-solving in practical situations.

## **Palmville College / WSSCE**

SEPTEMBER 2018 -MARCH 2024, 41/441 road, 4TH AVENUE,  
FEDERAL HOUSING ESTATE, IPAJA, LAGOS.

Completed secondary education at Palmville College, where I developed a strong academic foundation and key life skills including communication, teamwork, discipline, and problem-solving. Took part in school projects and activities that improved confidence, responsibility, and time management.

---

### **Projects**

---

#### **GreenField Local Hub – E-commerce Web Application**

I developed a Django-based e-commerce platform for local producers and customers. The project included user registration, login, role-based dashboards, product browsing, basket functionality, checkout, order history and database management. I used Python, Django, HTML, CSS, Bootstrap, SQL and Git/GitHub.

#### **Staff Website – IT Placement Project**

I created an internal staff-only website during my industry placement. This helped me improve my skills in web design, user interface development, problem-solving and building software based on workplace requirements.

---

### **Skills**

---

Python, Django, HTML, CSS, Bootstrap, SQL, Git/GitHub, Figma, responsive web design, database management, testing and debugging. Strong communication, teamwork, problem-solving, time management and customer service skills developed through college projects, industry placement and part-time work.

---

### **Interests**

---

I am interested in web development, UI/UX design, software engineering, e-commerce platforms and learning new technologies.

---

## Certifications

---

GCSE Maths Certificate

GCSE English Certificate

WSSCE Certificate

T Level Digital Production, Design and Development – Completed

---

## Technologies

---

Python, Django, HTML, CSS, JavaScript, Bootstrap, Bootswatch, Tailwind CSS, SQL, SQLite, Figma, Git, GitHub, Visual Studio Code, PowerShell, Microsoft Word, Excel, PowerPoint, Outlook, Teams, OneDrive, SharePoint, Microsoft 365, Microsoft Forms, Microsoft Azure, PythonAnywhere, Stripe, Google Places API and OAuth.

**Microsoft Azure:** Basic understanding of cloud services, hosting concepts and cloud-based development tools.

**IT Support:** Familiar with Windows OS, Mac OS, basic troubleshooting, software setup, file management and general computer support.
